Notes to the Condensed Interim Consolidated Financial Statements

(Unaudited)

For the six months ended June 30, 2021 and 2020

(All amounts are in Canadian Dollars, unless otherwise stated)

1 Nature of operations

Lincoln Gold Mining Inc. (the "Company" or "Lincoln") is incorporated under the Business Corporations Act, British Columbia. The Company's head and registered office, principal address and records is Suite 400 – 789 West Pender Street, Vancouver, British Columbia, Canada, V6C 1H2. The Company is a precious metals exploration and development company.

The condensed interim consolidated financial statements of the Company for the six months ended June 30, 2021 comprise the Company and its subsidiaries (Note 2(b)). These condensed interim consolidated financial statements are presented in Canadian dollars and all values are rounded to the nearest dollar except where otherwise indicated. The Company is listed on the TSX Venture Exchange ("TSX-V: LMG") and the Frankfurt Stock Exchange ("ZMG2").

2 Basis of Presentation and Significant Accounting Policies

(a) Basis of preparation

The condensed interim consolidated financial statements for the six months ended June 30, 2021 have been prepared in accordance with IAS 34 – Interim Financial Reporting of International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and Interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). The condensed interim consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Company's annual consolidated financial statements as at and for the year ended December 31, 2020.

The condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These financial statements were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on August 26, 2021.

Going concern assumption

These consolidated financial statements have been prepared by management on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

The Company has not yet determined whether its mineral properties contain ore reserves and the Company has incurred ongoing losses since inception. Further, the Company has a working capital deficiency of \$1,234,004 (December 31, 2020 - \$1,076,400) and total liabilities of \$2,316,222 (December 31, 2020 - \$2,248,072). The future success of the Company is dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete their exploration and development, and upon establishing future profitable production, or realization of proceeds on disposal.

Management recognizes that the Company will need to raise additional funds to maintain operations and while it has been successful in doing so in the past, there can be no assurance that it will be able to do so in the future. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern. These consolidated financial statements do not give effect to the adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material.

In March 2020, the World Health Organization declared the coronavirus a global pandemic. This contagious disease outbreak and related adverse public health developments, which has continued to spread, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or ability to raise funds.

2 Basis of Presentation and Significant Accounting Policies (Cont'd)

(b) Consolidation

Subsidiaries

Subsidiaries are all entities (including special purpose entities) over which the Company has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are de-consolidated from the date that control ceases.

Inter-company transactions, balances, income and expenses on transactions are eliminated. Profits or losses resulting from intercompany transactions that are recognized in assets are also eliminated. Accounting policies of subsidiaries are consistent with the policies adopted by the Company.

The consolidated financial statements include the financial statements of Lincoln Gold Mining Inc., the parent company and the subsidiaries listed below:

	Country of Incorporation	Economic interests	Principal activity
Lincoln Gold US Corp.	United States of America	100%	Mineral exploration
Lincoln Resource Group Corp.	United States of America	100%	Mineral exploration
Minera Lincoln de Mexico, S.A. de C.V.	Mexico	100%	Mineral exploration

3 Critical accounting estimates and judgements

The preparation of consolidated financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions concerning the future. Although management uses historical experience and its best knowledge of the amount, events or actions to form the basis for judgments and estimates, actual results may differ from these estimates.

The most significant accounts that require estimates as the basis for determining the stated amounts include:

Income taxes

In assessing the probability of realizing income tax assets, management makes estimates related to expectations of future taxable income, applicable tax opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified.

Share-based compensation

The Company uses the Black-Scholes option pricing model for valuation of share-based compensation. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate and forfeiture rate. Changes in the input assumptions can significantly change the fair value estimate and the Company's earnings and equity reserves.

Critical judgments exercised in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are as follows:

Company's title on mineral property interests

Although the Company has taken steps to verify the title to mineral properties in which it has an interest, in accordance with industry practice for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties, and, to the best of its knowledge, title to all of its properties, are properly registered and in good standing.

United States

(a) Pine Grove Property, Nevada

During fiscal 2007, the Company entered into three separate agreements with Wheeler Mining Company ("Wheeler"), Lyon Grove, LLC ("Lyon Grove") (subsequently acquired by Goldcliff Resource Corporation in June 2016 and re-acquired by the Company in October 2019) and Harold Votipka ("Votipka") which collectively comprise the Pine Grove Property. In fiscal 2010, the Company added the Cavanaugh property.

- (i) In July 2007, the Company entered into an agreement with Wheeler to lease Wheeler's 100% owned mining claims in Lyon County, Nevada from July 13, 2007 to December 31, 2022 with an exclusive option to renew the lease by written notice to December 31, 2023. If the property is and remains in commercial production by November 1 of each year after 2022, the Company may renew the lease for a period of one year by delivering written notice to the owner prior to November 15 of that year.

The Company was required to produce a bankable feasibility study on the properties by December 31, 2010 and obtain all necessary funding to place the properties into commercial production. The Company has since received an extension as new technical data is being developed. The Company must pay an NSR of 3% - 7% upon commencement of commercial mining production based on gold prices and the Company must pay a 5% NSR on metals or minerals other than gold produced and sold from the properties.

The following non-refundable advance NSR payments must be made by the Company:

- US\$10,000 upon signing the agreement (paid); and
- US\$30,000 prior to each one-year anniversary of the lease (Years 1-6 paid by the Company; Years 7-10 paid by Goldcliff Resource Corporation ("Goldcliff") a company with a common director; Years 11-13 paid by the Company).

- (ii) In July 2007, the Company entered into an agreement with Votipka to acquire three claims located within the Pine Grove Mining District in Lyon County, Nevada in return for a payment of US\$12,000 (paid in 2007). Upon commencement of commercial production, the Company will pay a 5% NSR to Votipka. The Company retains the right to buy down up to 2.5% of the NSR at any time for US\$100,000 per percentage point.

(a) Pine Grove Property, Nevada (Cont'd)

- (iii) In August 2010, the Company and its wholly owned subsidiary Lincoln Gold US Corp ("Lincoln US") entered into a purchase agreement for Lincoln US to acquire unpatented mining claims and associated water rights (collectively known as the "Cavanaugh property") situated at the Company's Pine Grove project in Lyon County, Nevada. In consideration for the sale of the Cavanaugh property, the vendors have received a total of US\$650,000 and 4,000 common shares of the Company as follows:

- On closing US\$250,000 and 1,500 shares (paid)
- August 23, 2011 US\$150,000 and 1,500 shares (paid)
- August 23, 2012 US\$150,000 and 1,000 shares (paid)
- August 23, 2013 US\$100,000 (paid)

The vendors will also retain a 1.5% NSR subject to the Company's option to buy down the royalty at a rate of US\$75,000 per one-half percent at any time up until 3 years after the Company's Board of Directors approves mine construction.

During the year ended December 31, 2016, the Company entered into an Exploration License Agreement (the "Agreement") with Placer Solutions LLC ("Placer"), a private company based in Montana, USA, to explore the placer claims on Lincoln's Pine Grover project in Nevada (the "Claim"). The Agreement applies to the Company's Pine Grove placer claims only as it is the Company's intent to develop its lode claims separately.

Under the terms of the Agreement, for a period of 18 months, the Company has granted Placer: i) the exclusive right to explore the Claims for a one-time payment of US\$10,000 (received), ii) an exclusive option to enter into a five (5) year mining lease on the Claims for an annual rental fee of US\$10,000 (received) for the first year and US\$6,000 thereafter and a net operating profit royalty of 20% (the "Lease Option").

Should Placer exercise the Lease Option, Placer has an exclusive right to purchase the Claims (and certain ancillary water rights) plus buyout the royalty for a total consideration of US\$1,500,000 for a period of three years from the anniversary of the lease. The Agreement may be terminated at Placer's discretion upon 60 days' written notice to the Company. The Agreement was terminated in 2019.

- (iv) In August 2016, the Company entered into an agreement with Goldcliff Resource Corporation ("Goldcliff") whereby Goldcliff can earn a 40% interest in the Wheeler and Votipka leases and Cavanaugh property in exchange for incurring US\$1,400,000 in exploration expenditure on the properties over three years, and conveying back to the Company a 60% interest in the Wilson lease that previously was acquired by Goldcliff. The Company is the operator for the earn-in. During the year ended December 31, 2019, Goldcliff decided not to proceed with this option and allowed it to lapse.

During the year ended December 31, 2017, the Company was informed by the Nevada State Division of Water Resources that it was forfeiting certain water rights at Pine Grove for non-use.

The Company filed a petition for judicial review of the decision of the Division of Water Resources seeking reinstatement of the water rights and the right to apply for an extension of time to place the water to beneficial use. The District Court entered its written decision in August 2017, granting the Company's petition. Lincoln has applied for an extension of time to place the water to beneficial use and will apply to change the point of diversion of the water to the Company's proposed mine site.

- (v) On October 8, 2019, the Company and Goldcliff entered into a Purchase Option Letter agreement to re-acquire from Goldcliff and its affiliates their interest in the Pine Grove Gold project for the consideration of USD \$200,000 cash and 2,750,000 common shares of the Company as follows:

Cash, USD \$200,000 to be paid as follows:

- Cash of US\$50,000 to be paid upon completion of the next financing of the Company (paid);
- Cash of US\$50,000 to be paid on or before March 31, 2020 (not paid);
- Cash of US\$50,000 to be paid on or before June 30, 2020 (not paid); and
- Cash of US\$50,000 to be paid on or before December 31, 2020 (not paid).

Shares, 2,750,000 shares to be issued as follows:

- Shares, 1,200,000 shares issued following the closing of the first financing (issued with a fair value of \$156,000);
- Shares, 800,000 shares to be issued on December 31, 2019 (issued with a fair value of \$80,000); and
- Shares, 750,000 shares to be issued on March 31, 2020 (issued with a fair value of \$150,000) (Note 12).

There is a "cutback" provision, provided that the Company shall not be required to issue shares to Goldcliff to the extent that such issuance would result in Goldcliff holding 10% or more of the outstanding shares of the Company, to the extent that the cutback reduces the number of shares above, the Company shall issue the shares that were subject to the cutback as soon as practicable after Goldcliff advises the Company that the issuance of such shares will not result in Goldcliff holding 10% or more of the outstanding shares of the Company.

- (vi) On March 19, 2021, the Company signed a non-binding Letter of Intent ("LOI") with Lyon Grove LLC to reduce the royalties on its Wilson property to 1% which comprises a substantial part of the Company's Pine Grove project in Nevada.

Under the terms of the LOI, the Company will buydown the current net smelter returns royalty ("NSR") on the Wilson property from 2.5% to 1.0% on the patented claims and from 5.0% to 1.0% on the claims that fall within the area of interest - for an aggregate consideration of US\$450,000 payable in quarterly instalments over six years commencing April 30, 2021 (US\$25,000 paid).

The LOI is subject to, amongst other things, the execution of a definitive agreement, project financing, and regulatory approval, as applicable.

- (vii) On April 28, 2021, the Company signed a non-binding Letter of Intent ("LOI") with Wheeler on the Wheeler property which comprises a substantial part of the Company's Pine Grove project. Under the terms of the LOI, the Company will buydown the NSR from 7% to 2% for an aggregate consideration of US\$5,000,000 over 6 years as follows:

- US\$100,000 payable on September 30, 2021, June 30, 2022 and December 31, 2022;

(b) Oro Cruz Property, California

In February 2010, the Company's 100% owned U.S. subsidiary, Lincoln Gold US Corp. ("Lincoln US"), concluded a lease agreement (the "Lease") to lease certain lode claims covering the Oro Cruz Property in Imperial County, California. The Lease involves advance royalty payments beginning at US\$50,000 per year and gradually increasing to US\$200,000 per year on the seventh anniversary and each subsequent anniversary of the effective date of February 22, 2010.

On May 1, 2018, the Company entered into a Purchase Option Letter agreement to re-acquire a 100% interest in the Hercules claims from ADGIS, Inc. ("ADGIS") (this agreement replaces the original agreement from February 2010) ("ADGIS Agreement"). The Company must make scheduled payments to ADGIS totaling US\$500,000 over five years and royalty payments as follows:

- US\$25,000 by May 15, 2018 (paid)
- US\$25,000 by August 1, 2018 (paid)
- US\$25,000 by October 1, 2018 (paid)
- US\$25,000 by December 1, 2018 (paid)
- US\$50,000 by May 15, 2019 (paid)
- US\$50,000 by May 15, 2020 (paid by Southern Empire Resources Corp.)
- US\$100,000 by May 15, 2021
- US\$100,000 by May 15, 2022
- US\$100,000 by May 15, 2023
- 2% net smelter return royalty from production within the Hercules claim boundaries ("Hercules Royalty")
- 1% net smelter return royalty from production generated by the Company outside the Hercules claim boundaries and within a 1-mile radius of the Hercules claims ("Buffer Royalty")

0.5% of the Hercules Royalty and the Buffer Royalty together can be repurchased by the Company for US\$500,000, which would reduce the Hercules Royalty to 1.5% and the Buffer Royalty to 0.5%.

An additional 0.5% of the Hercules Royalty can be repurchased by the Company for US\$500,000 to reduce the Hercules royalty to 1%.

On February 28, 2019, the Company granted to Demerara Gold Corp. ("Demerara") and Bell Mountain Exploration Corp. ("Bell Mountain" – a subsidiary of Eros Resources Corp.) the right to enter into a formal Option and Joint Venture Agreement for the exploration of the Oro Cruz property. To earn a 75% interest, Demerara and Bell Mountain will have to spend approximately USD\$2.1 million in property payments, exploration and development over the next five years. With the signing of the formal agreement below, these advances are no longer payable, will be acknowledged as applied towards exploration expenditures and have been recorded as a recovery.

On October 1, 2019, the Company entered into a formal Option and Joint Venture Agreement with Demerara and Bell Mountain. Collectively the "Optionee", granting the Optionee an option to purchase up to an undivided 75% interest in the Oro Cruz Property, (see "Owl" below).

i) First Option – 51% interest in the Oro Cruz Property

The Company grants the Optionee the right to acquire a 51% interest in the Oro Cruz Property by paying US\$110,000 cash, funding the payments made to maintain the ADGIS Agreement in good standing, and incurring US\$1,000,000 in exploration expenditures as follows:

Cash of US\$110,000 as follows:

- Cash of US\$10,000 paid to the Company – received March 6, 2019;
- Cash of US\$25,000 to be paid to the Company on or before February 15, 2020 (received);
- Cash of US\$25,000 to be paid to the Company on or before February 15, 2021 (received);
- Cash of US\$25,000 to be paid to the Company on or before February 15, 2022;
- Cash of US\$25,000 to be paid to the Company on or before February 15, 2023.

7 Provisions

The Company's recognized a constructive provision for environmental rehabilitation relating to a Pine Grove Property, which will require future cleanup costs estimated to be approximately US\$70,000. Management expects that the cleanup costs would be incurred in the future, at the end of the expected useful life of the property; however, as the technical feasibility of Pine Grove Property has not been completed yet, the life of the property is uncertain at the reporting date. The provision represents best management estimates and includes the following assumptions: term – 10 years; inflation rate – 0.7%, pre-tax risk-free interest rate – 2.8%.

The closing balance is summarized as follows:

	June 30, 2021	December 31, 2020
	\$	\$
Beginning balance	82,758	84,422
Changes in exchange rates	(2,197)	(1,664)
Closing balance	80,561	82,758

During the six months ended June 30, 2021 and 2020, the finance costs in relation to the accretion of the provision are negligible.

Capital risk management

The Company defines its capital as shareholders' deficiency. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The properties in which the Company currently has interests are in the exploration stage. As such, the Company has historically relied on the equity markets to fund its activities. In addition, the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will need to raise additional funds in the future until the production commences. The Company will continue to assess new properties and seek to acquire an interest in additional properties if management consider there is sufficient geologic or economic potential and the Company has adequate financial resources and support from investors. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes to the Company's approach to capital management during the current period.

The Company is exposed to varying degrees to a variety of financial instrument related risks:

Fair value

The carrying value of cash, other receivables, accounts payable and accrued liabilities, due to related parties, loans payable, and promissory notes are measured at amortized cost. The carrying value of lease liability approximated its fair value as it bears interest that approximates current market rates.

Foreign exchange risk

The Company's operations in the United States expose the Company to foreign exchange risk. The Company is subject to currency risk due to the fluctuations of exchange rates between the Canadian and US dollars. The Company does not believe it is exposed to significant foreign exchange risk. A 10% fluctuation in the foreign exchange rate between the Canadian and US dollar will result in a foreign exchange gain/loss of approximately \$144,000. The Company does not enter into derivative financial instruments to mitigate foreign exchange risk.

Credit risk

The Company is not exposed to material credit risk.

13 Financial instruments (Cont'd)

Interest rate risk

Interest rate risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not hold any financial liabilities with variable interest rates.

Liquidity risk

The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances and through short-term borrowing. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments.

Price risk

The ability of the Company to explore its mineral properties and the future profitability of the Company are directly related to the market price of precious metals. The Company monitors precious metals prices to determine the appropriate course of action to be taken by the Company.

MANAGEMENT DISCUSSION AND ANALYSIS (MD&A) WHICH HAS BEEN PREPARED ON AUGUST 26, 2021 TO ACCOMPANY THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF LINCOLN GOLD MINING INC. (THE "COMPANY" OR "LINCOLN") FOR THE SIX MONTHS ENDED JUNE 30, 2021.

This Management's Discussion and Analysis ("MD&A"), should be read in conjunction with the unaudited condensed interim consolidated financial statements of the Company for the six months ended June 30, 2021 and the annual audited consolidated financial statements of the Company for the year ended December 31, 2020. All financial amounts are stated in Canadian currency unless stated otherwise.

The financial statements and the management's discussion and analysis are intended to provide a reasonable base for the investor to evaluate the Company's financial situation.

The financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards ("IFRS"). All dollar amounts contained in this MD&A are expressed in Canadian dollars, unless otherwise specified.

Where we say "we", the "Company" or "numbered company", we mean Lincoln Gold Mining Inc., the parent company and its wholly-owned subsidiaries, as it may apply.

This management discussion and analysis may contain forward-looking statements in respect of various matters including upcoming events and include without limitation, statements regarding discussions of the Company's business strategy, future plans, projections, objectives, estimates and forecasts and statements as to management's expectations with respect to, among other things, the development of the Company's project. These forward-looking statements involve numerous risks and uncertainties and actual results may vary. Important factors that may cause actual results to vary include without limitation, certain transactions, certain approvals, changes in commodity prices, risks inherent in exploration results, timing and success, inaccurate geological and metallurgical assumptions (including with respect to the size, grade and recoverability of mineral reserves and mineral resources), delays in the receipt of government approvals, and changes in general economic conditions or conditions in the financial markets, the state of the world's health physically and financially in dealing with Covid-19. In making the forward-looking statements in this MD&A, the Company has applied several material assumptions, including without limitation, the assumptions that: (1) any additional financing needed will be available on reasonable terms.

Additional factors that could cause actual results to differ materially from those expressed or implied by such forward-looking statements include, among other factors: (1) weak commodity prices and general metal price volatility; (2) the state of the global economy and economic and political events, including the deterioration of the global capital markets, affecting supply and demand and economic and political events affecting supply and demand; and (3) securing and the nature of regulatory permits and approvals and the costs of complying with environmental, health and safety laws and regulations.

The Company cannot assure investors that any of these assumptions will prove to be correct.

The words "expect," "anticipate," "estimate," "may," "will," "should," "intend," "believe," "target," "budget," "plan," "projection" and similar expressions are intended to identify forward-looking statements. Information concerning mineral reserve and mineral resource estimates also may be considered forward-looking statements, as such information constitutes a prediction of what mineralization might be found to be present during operations or if and when an undeveloped project is actually developed.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended June 30, 2021

(in Canadian dollars, unless otherwise stated)

These factors should be considered carefully, and readers should not place undue reliance on the Company's forward-looking statements. The Company believes that the expectations reflected in the forward-looking statements, including future-oriented financial information, contained in this MD&A and any documents incorporated by reference are reasonable, but no assurance can be given that these expectations will prove to be correct. In addition, although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, including future-oriented financial information, there may be other factors that cause actions, events, or results not to be as anticipated, such as future waves of Covid -19, estimated, or intended. The Company undertakes no obligation to disclose publicly any future revisions to forward-looking statements, including future-oriented financial information, to reflect events or circumstances after the date of this MD&A, or to reflect the occurrence of unanticipated events, except as expressly required by law.

Additionally, the forward-looking statements, including future-oriented financial information contained herein, are presented solely for the purpose of conveying our reasonable belief of the direction of the Company and may not be appropriate for other purposes.

The results or events predicted in these forward-looking statements may differ materially from the actual results or events. The Company disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

This MD&A contains certain forward-looking statements based on the best beliefs, and reasonable assumptions of the management of Lincoln Gold Mining Inc. There are many risks and uncertainties attached to the mineral exploration business. Given these risks and uncertainties, the reader should not place undo reliance on these forward-looking statements.

1. Overview

Lincoln Gold Mining Inc. (the "Company" or "Lincoln") is incorporated under the Business Corporations Act, British Columbia. The Company's head and registered office, principal address and records is Suite 400 - 789 West Pender Street, Vancouver, British Columbia, Canada, V6C 1H2. The Company is listed on the TSX Venture Exchange ("TSX-V: LMG") and Frankfurt Stock Exchange ("ZMG2").

Lincoln Gold Mining Inc. is an advanced-stage precious metals exploration and development company with two projects in various stages of exploration, which include the Pine Grove gold property in Nevada, USA, and the Oro Cruz gold property in California, USA. In the United States, the Company operates under its subsidiaries, Lincoln Gold US Corp. and Lincoln Resource Group Corp. On September 24, 2019, the Company consolidated its common shares on the basis of ten pre-consolidated common shares for one post-consolidated common share. The Company also completed a name change to Lincoln Gold Mining Inc. from Lincoln Mining Corporation. The TSXV approved this consolidation of stock and name change in September 2019.

The Company's intention and strategies are to continue to advance its projects, with a long term goal of building Lincoln into a mid-tier gold producer.

Corporate activities during the six months ended June 30, 2021 and subsequent to the quarter end

On March 19, 2021, the Company signed a non-binding Letter of Intent ("LOI") with Lyon Grove LLC to reduce the royalties on its Wilson property to 1% which comprises a substantial part of the Company's Pine Grove project in Nevada. Under the terms of the LOI, the Company will buydown the current net smelter returns royalty ("NSR") on the Wilson property from 2.5% to 1.0% on the patented claims and from 5.0% to 1.0% on the claims that fall within the area of interest - for an aggregate consideration of US\$450,000 payable in quarterly instalments over six years commencing April 30, 2021.

The LOI is subject to, amongst other things, the execution of a definitive agreement, project financing, and regulatory approval, as applicable.

Overview ... (continued)

On April 25, 2021, the Company entered into an option agreement ("Agreement") to acquire an undivided 100% interest to the Shawinigan nickel, copper and cobalt, property located in the Shawinigan Township, Quebec. For consideration, the Company will make \$380,000 in cash payments, issue 2,100,000 common shares of the Company and incur exploration expenditures of \$2,000,000. The Company will have the right at any time to purchase a 1% Net Smelter Return for a cash payment of \$1,500,000.

The Shawinigan property, located in the southern part of the Province of Quebec, is approximately 130 kilometers (80.78 miles) northeast of Montreal, Canada. The property is three kilometres west of the town of Shawinigan and is accessible by a highway, gravel road, and finally dirt 4X4 roads to and within the property boundary. The property consists of 21 contiguous mineral claims covering a total area of 12.4 square kilometres (1,240 hectares). No part of the property is located within an area restricted from exploration or mining activities.

The Shawinigan Ni-Cu property is situated in an area that is well known for hosting Ni-Cu mineralization and is a prime target for Ni-Cu deposits. Field and drill testing programs to date have covered only a small area of the property, as most of the previous holes have focused on the area north of the Shawinigan Ni-Cu prospect. Good potential exists for locating more significant mineralization elsewhere on the property.

The property is also the host of Lake Huard's cobalt prospect which was discovered by prospectors in 1956.

On April 28, 2021, the Company signed a non-binding LOI with Wheeler Mining Company ("Wheeler") on the Wheeler property which comprises a substantial part of the Company's Pine Grove project. Under the terms of the LOI, the Company will buydown the NSR from 7% to 2% for an aggregate consideration of US\$5,000,000 over 6 years.

On June 4, 2021, the Company closed a non-brokered private placement. The Company issued a total of 2,768,666 units at a price of \$0.15 per unit for total gross proceeds of \$415,300. Each unit is comprised of one common share of the Company and one common share purchase warrant. Each warrant entitles the holder to purchase one additional common share of the Company at a price of \$0.25 per share until June 4, 2023. The Company paid cash finders' fees of \$10,500 and issued 70,000 finders' warrants at a value of \$10,619. Each finders' warrant entitles the holder to purchase one common share of the Company at a price of \$0.25 per share until June 4, 2023. The fair value of the finders' warrants was calculated using the Black-Scholes Option Pricing Model with an expected life of two years, interest rate of 0.32%, dividend yield of 0% and expected volatility of 161%.

On July 20, 2021, the Company closed a non-brokered private placement. The Company issued a total of 3,600,000 units at a price of \$0.18 per unit for total gross proceeds of \$648,000. Each unit is comprised of one common share of the Company and one common share purchase warrant. Each warrant entitles the holder to purchase one additional common share of the Company at a price of \$0.25 per share for a period of three years.

Corporate Activities during the year ended December 31, 2020:

On March 9, 2020, the Company completed a debt settlement agreement with various creditors of the Company with respect to outstanding debt (including principal and interest) totaling \$220,000. Of this amount, 1,570,000 common shares were issued to settle indebtedness to certain related parties of \$157,000 and 630,000 common shares were issued to settle promissory notes payable of \$63,000. The common shares issued resulted in a gain on settlement of debts of \$55,000.

In April 2020, the Company closed a non-brokered private placement offering (the "Private Placement") of 2,200,000 units of the Company (the "Units") at a price of \$0.075 per Unit to raise gross proceeds of \$165,000. Each Unit consists of one common share in the capital of the Company (a "Common Share") and one half of a Common Share purchase warrant. Each full warrant entitles the holder, on exercise thereof, to purchase one additional Common Share at a price of \$0.10 for a period of 24 months from the closing of the Private Placement.

On April 17, 2020, the Company issued 800,000 shares to Goldcliff Resource Corporation ("Goldcliff") with respect to the Pine Grove acquisition.

The Company had no revenue as the Company has not yet determined whether its mineral properties contain ore reserves; therefore, the Company has incurred ongoing losses since inception.

During the quarter ending December 31, 2019, the Company spent \$61,727 on exploration expenses, which is \$592,395 less than the \$654,122 spent on exploration expenses for the same quarter in the previous year.

During the quarter ending December 31, 2019, the Company recorded recoveries against exploration expenditures, decreasing the losses made during the quarter by \$252,154 compared with the same quarter during the previous year.

During the quarter ending June 30, 2020, the Company entered into a sale and purchase agreement to assign an undivided 25% interest in and to the Oro Cruz Property in full and final settlement of the total advances of \$440,000 to Mr. Ronald K. Netolitzky and two other companies controlled by Mr. Ronald K. Netolitzky. The Company recognized a gain on settlement of debts of \$440,000 related to this sale and purchase agreement during the quarter ended June 30, 2020.

During the quarter ending September 30, 2020, the Company recorded \$483,683 in share-based compensation related to the granting of 2,300,000 stock options with an exercise price of \$0.30 per share and expiry date of five years from the grant date.

3. Results of Operations

Results of Operations – For the six months ended June 30, 2021

For the six months ended June 30, 2021, the Company incurred an operational loss of \$439,781 (2020 - \$99,050).

FORM 51-102F1
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the six months ended June 30, 2021

(in Canadian dollars, unless otherwise stated)

Results of Operations ... (continued)

Administrative expenses decreased to \$236,612 compared to \$353,479 in the comparative period mainly related to a foreign exchange gain of \$49,953 (2020 – loss of \$77,691) as a result of the translation of US dollar transactions and balances to the Company's functional currency in Canadian dollar during the period and a decrease in investor relations and shareholder services by \$14,847. Share-based compensation was \$6,865 related to the vesting of stock options granted by the Company in a prior period.

Exploration expenses decreased by \$67,359 to \$130,265 on the properties compared to the prior period mainly consisting of advance royalty payments of \$112,230 (2020 - \$Nil) and contractor work of \$78,841 (2020 - \$92,992) on the Pine Grove property offset by option payments received on the Oro Cruz property of \$82,302 (2020 - \$34,128) and recovery from a joint venture partner of \$Nil (2020 - \$81,787).

During the comparative period, the Company recognized a gain on settlement of debts in the amount of \$495,000 related to issuing 2,200,000 common shares to various creditors of the Company totalling \$220,000 and assigning an undivided 25% interest in and to the Oro Cruz Property in settlement of advances of \$440,000.

Results of Operations – For the three months ended June 30, 2021

For the three months ended June 30, 2021, the Company incurred an operational loss of \$290,084 (2020 – income of \$286,704).

Administrative expenses increased to \$142,738 compared to a recovery of \$2,666 in the comparative period mainly related to a foreign exchange gain of \$27,076 (2020 – \$145,653) as a result of the translation of US dollar transactions and balances to the Company's functional currency in Canadian dollar during the period and an increase in professional fees by \$24,547 mainly due accounting services provided by the Chief Financial Officer of the Company. Share-based compensation was \$2,293 related to the vesting of stock options granted by the Company in a prior period.

Exploration expenses decreased by \$73,891 to \$110,483 on the properties compared to the prior period mainly due to the exploration activity on the Pine Grove property and recovery of options payments on the Oro Cruz property.

The Company's key projects are Shawinigan, Pine Grove and Oro Cruz. The total costs incurred on all significant projects since 2007 is summarized in the table below:

4. Projects

Overview

Pine Grove Property, Nevada – The Pine Grove gold project, located in Lyon County, Nevada, is the Company's most advanced project. At the time of writing of this MDA Lincoln is well underway in the permitting studies needed to take the project to production. A prefeasibility study is planned for the Fall of 2021.

The Pine Grove property is a development-stage gold project. The property lies approximately 20 miles south of Yerington, in the Pine Grove Hills, Lyon County, Nevada. The Company has mining leases on the Wilson and Wheeler mines (patented claims) and 243 unpatented claims owned directly by Lincoln. The Company's land position covers approximately 7 square miles that encompass the main gold mineralization, exploration targets and adequate land for mine facilities. Two hundred seventy-five holes have been drilled in the district. Eighty-three holes were drilled in 2009 and 2010 by Lincoln.

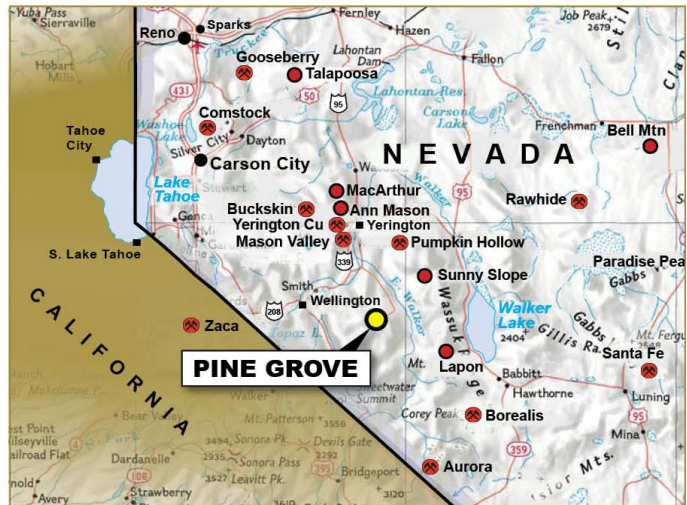

At the Pine Grove project historic gold production was 240,000 ozs high-grade gold from underground mining in the late 1800s and early 1900s.

On December 8, 2011, a Preliminary Economic Assessment (PEA) was issued by Telesto Nevada Inc. of Reno, NV. An amended and restated PEA was issued on February 4, 2015 by Welsh-Hagen Associates (formerly Telesto Nevada Inc.) and their Qualified Persons, (see Lincoln News Release February 16, 2015).

The 2015 PEA reports total Measured and Indicated resources at 134,500 ozs gold contained in 3,373,000 tons of mineralized material grading 0.040 opt Au using a cutoff grade of 0.007 opt gold. Inferred resources were reported at 6,600 ozs gold contained in 160,000 tons of mineralized material grading 0.041 opt Au using a cutoff grade of 0.007 opt Au. In order to comply with the CIM definition for resources, only those mineralized blocks contained within a designed pit shell are reported as resources. These resources are contained in two conceptual pits, the Wheeler and the Wilson, based on a gold price of US\$1,425.

In August 2020, yearly land payments were made to the BLM and Lyon County to keep the property in good standing.

During the year ended December 31, 2016, the Company entered into an Exploration License Agreement (the "Agreement") with Placer Solutions LLC ("Placer"), a private company based in Montana, USA, to explore the placer claims on Lincoln's Pine Grove project in Nevada (the "Placer Claims"). The Agreement applies to the Company's Pine Grove placer claims only as it is the Company's intent to develop its lode claims separately.

Projects ... (continued)

The Agreement was terminated in 2019. Placer is required to carry out reclamation work on the area that it disturbed and to that end some reclamation work was completed at the property in the summer and fall of 2020. The land has been contoured and fenced. The only item left to complete is seeding of the area.

In June 2016, Goldcliff Resource Corporation ("Goldcliff"), a company with a common director, acquired the lease to the Wilson claims from the Company in exchange for Goldcliff assuming the future lease commitments as well as outstanding lease payments and work commitments.

In August 2016, the Company entered into an agreement with Goldcliff whereby Goldcliff could earn a 40% interest in the Wheeler and Votipka leases and Cavanaugh property in exchange for incurring US\$1,400,000 in exploration expenditure on the properties over three years, and conveying back to the Company a 60% interest in the Wilson lease that previously was acquired by Goldcliff. The Company is the operator for the earn-in.

By mid-December 2016, Goldcliff had completed a drilling program of 14 holes that totalled 2,132.6 metres (6,976.25 feet). All assays were received by the first of February and are reviewed in the news release of February 9, 2017. No additional exploration work was carried out on the property during 2017 or 2018; however, a number of permitting studies were performed.

A Binding Letter of Intent between Goldcliff and Lincoln for the selling back to Lincoln of the lease on the Wilson Patented Claims located in Lyon County, Nevada was signed in October 2019. The Wilson claims are part of the Pine Grove development project and were included in the Pine Grove Joint Venture between the two companies. Goldcliff will receive staged cash and share payments and retain title to the claims until all payments and share issuances are completed, (see News Release of October 8, 2019).

To aid the Company in all this work, Lincoln announced the engagement of an effective permitting team that will allow it to proceed with permitting of the Pine Grove project towards operation. The consulting team with respective task assignments is headed up by Stantec Consulting Services Inc. ("Stantec").

Stantec Consulting Services Inc. – For the collection of environmental baseline data and writing of environmental reports, Stantec has prepared documentation to present the results of acid base accounting ("ABA") and meteoric water mobility procedure ("MWMP") of samples from drill holes intended to test waste rock at Lincoln's proposed Pine Grove project. This testing was requested by the NDEP's Bureau of Mining Reclamation and Regulation ("BMRR"). Stantec has delivered initial archaeological, botanical and wildlife studies to the USFS. Stantec installed a meteorological station and has collected site-specific weather data since 2010.

On May 15, 2018, the Company through its subsidiary Lincoln Resource Group Corp., submitted a Mine Plan of Operations ("PoO") to the United States Forest Service, Humboldt-Toiyabe National Forest. The PoO was compiled by Welsh Hagen Associates of Reno, Nevada and incorporated data and information from a number of consulting companies that are working on the project. Submission of the PoO initiates the National Environmental Policy Act ("NEPA"), which requires the compilation of an Environmental Impact Statement ("EIS"), including public comment. The lead agency is the U.S. Forest Service – Bridgeport Ranger District in Bridgeport, California. Lincoln is working closely with its prime environmental contractor, Stantec and the U.S. Forest Service to advance the permitting process as quickly as possible.

In August 2018, the Company engaged a team of consultants to guide it through the production permitting process. Stantec has been chosen as the lead contractor for the EIS.

Oro Cruz Gold Property, Imperial County, California

The Oro Cruz Property is located in the Tumco Mining District of southeastern California. The project is approximately 14 miles southeast from the operating Mesquite gold mine (New Gold Inc.) and adjacent to the past producing American Girl and Padre-Madre gold mines. Acquired in February 2010, Oro Cruz consists of 151 lode claims covering approximately 3,000 acres. Oro Cruz is a pre-development stage gold project.

Projects ... (continued)

In September 2010, Lincoln filed a NI 43-101 technical report. Oro Cruz has an Inferred resource estimate of 376,600 ozs gold, grading 0.050 opt gold at a 0.01 opt cutoff grade. The existing pit and underground decline expose gold mineralization. Previous work has identified multiple exploration targets and Lincoln has identified several satellite gold zones, which offer potential for increasing gold resources.

Inferred	0.01	7,860,000	0.050	376,600

On October 1, 2019, the Company entered into a formal Option and Joint Venture Agreement with Demerara Gold Corp. (“Demerara”) and Bell Mountain Exploration Corp. (“Bell Mountain” – a subsidiary of Eros Resources Corp.) collectively the “Optionee”, granting the Optionee an option to earn up to an undivided 75% interest in the Oro Cruz Property.

On March 18, 2020 Owl Capital Corp. ("Owl") closed its previously announced Qualifying Transaction with Eros Resources Corp. ("Eros") and Demerara whereby Owl acquired Demerara and Eros and thereby acquired the 75% earn-in option interest in the Oro Cruz Gold project in California. As a result of closing the Qualifying Transaction the company changed its name to Southern Empire Resources Corp. ("Southern Empire") and was listed as a Tier 2 mining issuer on the TSX Venture Exchange.

Southern Empire continues work on the property as they need to spend \$2.1 million US to earn the 75% interest.

The Oro Cruz property has excellent potential for open-pit and underground mining. An Inferred resource for the project was reported in a NI 43-101 Technical Report in September 2010.

Shawinigan Property, Southern Quebec

The property is situated in an area that is well known for hosting Nickel Copper mineralization and is a prime area for Ni-Cu and Cobalt deposits. Field and drill testing programs to date have covered only a small area of the property, as most of the previous holes have focused on the area north of the Shawinigan Ni-Cu prospect. Excellent potential exists for locating more significant mineralization elsewhere on the property

The Property is approximately 130 kilometers northeast of Montreal, Canada just north of the St. Lawrence river. It is three kilometers west of the town of Shawinigan and is accessible by highway, gravel and dirt roads. In April Lincoln acquired an option on 21 claims in the area and in August an additional 61 claims to the south and south-west of the option agreement claims were staked by Lincoln. The Property now consists of 82 contiguous mineral claims and now covers a total area of 48.4 square kilometers (4,841.8 hectares).

On the map below, the red areas show the originally optioned claims and blue/green shows the additional staked claims.

Previous work has identified three areas for immediate future exploration. Only a small area of the property has been explored and excellent potential exists for locating mineralization elsewhere on the property. Airborne geophysical programs were carried out in 1976 and 2016 as well as diamond drilling in 1975 and 1976 highlight targets for future exploration work. The Property also hosts Lac des Huards cobalt prospect discovered in 1956 and the Lac Bell nickel copper prospect.

Lincoln is in the process of developing exploration work program for the next 18 months. Work is expected to begin on the property in the fall of this year.

On August 13, 2020, the Company closed a non-brokered private placement. The Company issued a total of 4,856,363 units at a price of \$0.11 per unit for total gross proceeds of \$534,200. Each unit is comprised of one common share of the Company and one-half common share purchase warrant. Each warrant entitles the holder to purchase one additional common share of the Company at a price of \$0.15 per share for a period of 24 months.

On May 20, 2020, the Company entered into a sale and purchase agreement to assign an undivided 25% interest in and to the Oro Cruz property in full and final settlement of the total advances of \$440,000 to Mr. Ronald K. Netolitzky and two other companies controlled by Mr. Ronald K. Netolitzky.

On April 17, 2020, the Company issued 800,000 shares to Goldcliff Resource Corporation with respect to the Pine Grove acquisition.

On April 8, 2020, the Company closed a non-brokered private placement offering (the "Private Placement") of 2,200,000 units of the Company (the "Units") at a price of \$0.075 per Unit to raise gross proceeds of \$165,000. Each Unit consists of one common share in the capital of the Company (a "Common Share") and one half of a Common Share purchase warrant (each whole warrant, a "Warrant"). Each Warrant entitles the holder, on exercise thereof, to purchase one additional Common Share at a price of \$0.10 for a period of 24 months from the closing of the Private Placement.

In March 2020, the Company entered into various settlement agreements with respect to approximately \$1,355,720 of debts. Of this amount, 1,570,000 common shares were issued to settle indebtedness to certain related parties of \$157,000 and 630,000 common shares were issued to settle promissory notes payable of \$63,000. The remaining debt of approximately \$1,180,910 was restructured and became payable over three years.

Capital Resources

The Company's primary sources of funding are equity financing through the issuance of stock and debt financing. The Company has no operations that generate cash flows and its long term financial success is dependent on discovering properties that contain mineral reserves that are economically recoverable.

The Company exercises its best effort to seek and utilize its capital resources in an efficient manner in order to meet its business commitments including exploration and mineral property development, acquisitions and working capital.

Capital risk management

The Company defines its capital as shareholders' deficiency. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The properties in which the Company currently has interests are in the exploration stage. As such, the Company has historically relied on the equity markets to fund its activities. In addition, the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will need to raise additional funds in the future until the production commences. The Company will continue to assess new properties and seek to acquire an interest in additional properties if management consider there is sufficient geologic or economic potential and the Company has adequate financial resources and support from investors. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

6. Commitment

During the year ended December 31, 2015, the Company signed a new office lease effective October 1, 2015 in the amount of \$4,642 per month plus escalation for a period of three years. In April 2018, the Company extended the lease for another three years for similar rates.

Loans

During the six months ended June 30, 2021, the Company received \$Nil (2020 - \$Nil), and repaid \$Nil (2020 - \$56), unsecured demand loan from the President of the Company. The remaining balance of the loan is unsecured, bearing interest at 5% per annum, calculated and payable on demand. The Company may repay the principal, in whole or in part, at any time without penalty. As at June 30, 2021, the loan payable balance to the President of the Company was \$49,440 (December 31, 2020 - \$46,976). On February 25, 2020, the Company negotiated a debt reorganization with respect to this unsecured demand loan to defer repayment in the amount of \$60,000 for a period of up to three years from the date of the debt settlement agreement. Repayment of \$20,000 is due on the one year anniversary of the debt settlement agreement, \$10,000 is due on the second year anniversary of the debt settlement agreement and \$30,000 is due on the third anniversary of the debt settlement agreement.

As of June 30, 2021, the Company had received advances totaling \$440,000 (December 31, 2020 - \$440,000) from Mr. Ronald K. Netolitzky, a previous control person of the Company, and two other companies controlled by Mr. Ronald K. Netolitzky. The advances are unsecured, non-interest bearing and due on demand. On May 20, 2020, the Company entered into a sale and purchase agreement to assign a 25% interest in and to the ADGIS Agreement and an undivided 25% interest in and to the Oro Cruz Property in full and final settlement of the total advances of \$440,000. The Company recognized a gain on settlement of debts of \$440,000 related to this sale and purchase agreement during the year ended December 31, 2020.

During the year ended December 31, 2015, the Company received US\$66,000 from a company that has an insider in common with Lincoln. During the year ended December 31, 2017, the existing promissory note was terminated and both parties subsequently entered into a new promissory note agreement consisting of the existing principal and interest in the aggregate amount of US\$71,000. The loan is secured by the Company's US properties and evidenced by a promissory note bearing interest at 9% per annum. Principal and accrued interest was payable upon termination of the note on September 15, 2017. On January 3, 2018, the Company issued 643,441 common shares for settlement of debt in the amount of \$32,172.

During the year ended December 31, 2016, the Company received \$6,527 from a company with certain directors in common. The loan is unsecured, non-interest bearing and due on demand.

On August 24, 2018, September 11, 2018, October 23, 2018, January 23, 2019, March 29, 2019, May 30, 2019 and April 1, 2021, the Company received \$65,180 (US\$50,000), \$65,070 (US\$50,000), \$91,994 (US\$70,000), \$93,436 (US\$70,000), \$66,815 (US\$50,000), \$53,344 (US\$40,000) and \$37,695 (US\$30,000) from Dragon Hill Creation Limited, respectively, a company controlled by a director of the Company. The loans are unsecured and evidenced by promissory notes bearing interest at 10% per annum, calculated and payable on the termination dates of the promissory notes from June 30, 2019 to March 31, 2022. The Company may prepay the principal, in whole or in part, at any time without penalty and the terms of the loans are currently being renegotiated.

Other transactions with related parties

During the six months ended June 30, 2021, the Company received \$6,327 (2020 - \$8,527) from Golden Band and Goldcliff for office rent. These companies have certain officers and directors in common.

Goldcliff is a public company with a director in common with the Company.

On March 9, 2020, the Company issued 1,570,000 common shares to settle indebtedness to certain related parties of \$157,000.

11. Accounting Policies - International Financial Reporting Standards (IFRS)

The accounting policies and methods employed by the Company determine how it reports its financial condition and results of operations, and may require management to make judgements or rely on assumptions about matters that are inherently uncertain. The Company's results of operations are reported using policies and methods in accordance with IFRS. In preparing financial statements in accordance with IFRS, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and expenses for the period.

Changes in Accounting Standards

The Company adopted no material new accounting standards during its current fiscal year, and is unaware of any applicable, but not-yet-adopted standards that are expected to materially affect the financial statements of future periods.

Critical Accounting Estimates and Judgments

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Although management uses historical experience and its best knowledge of the amount, events or actions to form the basis for judgments and estimates, actual results may differ from these estimates.

Critical judgments exercised in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are as follows:

Company's title on mineral property interests

Although the Company has taken steps to verify the title to mineral properties in which it has an interest, in accordance with industry practice for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

Share-based compensation

The Company uses the Black-Scholes option pricing model for valuation of share-based compensation. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate and forfeiture rate. Changes in the input assumptions can significantly change the fair value estimate and the Company's earnings and equity reserves.

Income taxes

In assessing the probability of realizing income tax assets, management makes estimates related to expectations of future taxable income, applicable tax opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified.

Management reviews its estimates and assumptions on an ongoing basis using the most current information available.

The Company is exposed to varying degrees to a variety of financial instrument related risks:

Fair value

The carrying value of cash, other receivables, accounts payable and accrued liabilities, due to related parties, loans payable, and promissory notes are measured at amortized cost. The carrying value of lease liability approximated its fair value as it bears interest that approximates current market rates.

13. Risks and Uncertainties

Foreign exchange risk

The Company's operations in the United States expose the Company to foreign exchange risk. The Company is subject to currency risk due to the fluctuations of exchange rates between the Canadian and US dollars. The Company does not believe it is exposed to significant foreign exchange risk. A 10% fluctuation in the foreign exchange rate between the Canadian and US dollar will result in a foreign exchange gain/loss of approximately \$144,000. The Company does not enter into derivative financial instruments to mitigate foreign exchange risk.

Credit risk

The Company is not exposed to material credit risk.

Interest rate risk

Interest rate risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not hold any financial liabilities with variable interest rates.

Liquidity risk

The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances and through short-term borrowing. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities.

Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments.

Risks and Uncertainties ... (continued)

Price risk

The ability of the Company to explore its mineral properties and the future profitability of the Company are directly related to the market price of precious metals. The Company monitors precious metal and base metal prices to determine the appropriate course of action to be taken by the Company.

Coronavirus global pandemic risk

In March 2020 the World Health Organization declared the coronavirus a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or ability to raise funds.

Other

The Company's principal activity is mineral property development and exploration. Companies in this industry are subject to many and varied kinds of risk, including but not limited to, environmental, metal prices, political, economical and now health related issues.

The mineral exploration business is risky and most exploration projects will not become mines. The Company may offer an opportunity to a mining company to acquire an interest in a property in return for funding all or part of the exploration and development of the property. For the funding of property acquisitions and/or exploration that the Company conducts, the Company depends on the issue of shares from the treasury to investors. These stock issues depend on numerous factors including a positive mineral exploration, environment, positive stock market conditions, a company's track record and the experience of management.

The Company has no significant source of operating cash flow and no revenues from operations. The Company has not yet determined whether its mineral properties contain mineral reserves that are economically recoverable. The Company has limited financial resources. Substantial expenditures are required to be made by the Company to establish reserves.

There is no guarantee that the Company will be able to contribute or obtain all necessary resources and funds for the exploration and exploitation of its permits, and may fail to meet its planned commitments.

The properties that the Company has an option to earn interests in are in the exploration and permitting stages. They are without known bodies of commercial mineralization, and have no ongoing mining operations. Mineral exploration involves a high degree of risk and few properties, that are explored, are ultimately developed into producing mines.

Exploration of the Company's mineral properties may not result in any discoveries of commercial bodies of mineralization that could be developed into operations with positive cash flows. If the Company's efforts do not result in any discovery of commercial mineralization, the Company will be forced to look for other exploration projects or cease operations.

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous material and other matters.

World health related issues associated with COVID-19 pandemic may impede the Company from completing the permitting process as quickly as first thought possible. At the time of writing this MDA there are numerous issues associated with the pandemic that remain unclear. How this will affect the Company's ability to proceed with funding the Company and carry on with ongoing permitting is uncertain.

14. Trends

Trends in the industry can materially affect how well any junior exploration company is performing. There are two trends that seem to affect the well-being of junior miners. Both of these trends are very mixed these days because of the Covid-19 and the uncertainty that it has brought to the world.

One is the price of commodities that are being produced and the other is the general market condition. Over the last few years the trend in the prices of precious metals, in particular gold, has been mixed on the spot basis as well as the average trailing prices of the metals. The gold price has been fluctuating between \$2050 US and \$1750 per ounce over the last few months..

The other aspect is the general stock market conditions. Unfortunately, the junior mining sector has been under tremendous negative pressure in the market over the last few years however this condition appears to be changing and as the junior gold market issuers has been up consistently over the last 5 months. Previous to the gold market moving upward significant amounts of investing have occurred in the marijuana and blockchain areas which has taken away from investment in the junior mining industry. Lincoln is committed to advancing its properties to production as quickly as possible to get into a positive cash flow position.

15. Outlook

Precious metals prices, especially gold, have been trending upward generally except for the last three or four months when the price has begun to fluctuate in the \$1750 to \$2050 range. However depending on economic conditions world-wide and world events including the Corona Virus this could change. These changes can be not only to interest rate changes in the U.S. but the world economy in general. Lincoln will require significant investment as it transitions into development stage projects. This needed investment may become more difficult to obtain if these world wide conditions persist. Lincoln management's objective is to become a new junior gold-silver producer in the United States, where there is no threat to mineral tenure or repatriation of mining profits.

Cautionary Statement

This document contains "forward-looking statements" within the meaning of applicable Canadian securities regulations. All statements other than statements of historical fact herein, including, without limitation, statements regarding exploration plans and our other future plans and objectives are forward-looking statements that involve various risks and uncertainties. Such forward-looking statements include, without limitation, (i) estimates of exploration investment and scope of exploration programs, and (ii) estimates of stock-based compensation expense. There can be no assurance that such statements will prove to be accurate, and future events and actual results could differ materially from those anticipated in such statement. Important factors that could cause actual results to differ materially from our expectations are disclosed in the Company's documents filed from time to time via SEDAR with the Canadian regulatory agencies to whose policies we are bound. Forward-looking statements are based on the estimates and opinions of management on the date of statements are made, and the Company endeavours to update corporate information and material facts on a timely basis. Forward-looking statements are subject to risks, uncertainties and other actors, including risks associated with mineral exploration, price volatility in the mineral commodities we seek, and operational and political risks.
